CURRENT INTEREST ITEMS -- IIS SOFTWARE DEVELOPMENT

<u>ITEM</u>	<u>ACTION</u>
<p>● UAC - Indicated recognition of PLP Specification deficiencies with re:</p> <ol style="list-style-type: none"> (1) Multiple Line-Security Classification capability (2) Indicating what was desired when data for given section of a report was not present - although PLP Statement did exist 	<p>Matter referred to [] (UAC) - no response yet - (Refer also to NPIC Item dealing with SPB's recommendations on PLP & RPG.)</p>
<p>● UAC - Just prior to [] departure - they met with ARIES on variety of subjects/ issues. ARIES provided MFR indicating their understanding of results.</p>	<p>We need confirmation (preferably from [] or [] that ARIES drew correct conclusions. The matter has been referred to [] (I've also formed out MFR to people of my Branch who attended same meeting to confirm content of MFR).</p>
<p>● UAC/NPIC - Existing EOL and RPG [] are very vague concerning requirements and constraints applicable to format and content of Private (tape) Files. (ARIES needs some guidance on this subject.)</p>	<p>UAC and NPIC (ISB & SPB) have been alerted to the problem. We must meet and decide generally what was intended in the original design - and then relay this to ARIES.</p>
